Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

(L) 10 minutes to prepare 1 hour to collaborate

2-8 people recommended

Before you collaborate A little bit of preparation goes a long way

with this session. Here's what you need to do to get going.

10 minutes

Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

Define your problem statement What problem are you trying to solve? Frame your

problem as a How Might We statement. This will be the focus of your brainstorm.

→ 5 minutes

PROBLEM

The main aim of the project is to building a model which is used for classifying the fruit depends on the different characteristics like colour, shape, texture etc. Here the user can capture the images of different fruits and then the image will be sent the trained model. The model analyses the image and detect the nutrition based on the fruits.

Key rules of brainstorming

Stay in topic.

Encourage wild ideas. Defer judgment.

To run an smooth and productive session

Go for volume.

Listen to others.

If possible, be visual.

Brainstorm

2

Write down any ideas that come to mind that address your problem statement.

→ 10 minutes

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.
